Submissions to Data in Brief are made freely available upon publication. A data article will make your data easier to find, easier to reproduce, and easier to cite. Please use the following link to access the Data in Brief template and follow the 'Co-submission Instructions' in this template.

As Data in Brief is open access, a moderate fee (APC) is payable by the author or research funder to cover the costs associated with publication. For more information about the APC please see: www.elsevier.com/journals/data-in-brief/2352-3409/open-access-journal.

Data in Brief (optional)

We invite you to convert your supplementary data (or a part of it) into an additional journal publication in Data in Brief, a multi-disciplinary open access journal. Data in Brief articles are descriptions of the data and associated metadata which are often overlooked in supplementary material, or descriptions of the complete dataset related to your research article which you have deposited in an external data repository. Submissions to Data in Brief are actively reviewed, indexed, given a DOI and made freely available upon publication. A data article will make your data easier to find, easier to reproduce, and easier to cite. Please use the [Data in Brief template](#) to write your data article and follow the 'Co-submission Instructions' in this template.

As Data in Brief is open access, a moderate fee (APC) is payable by the author or research funder to cover the costs associated with publication. For more information about the APC please see: www.elsevier.com/journals/data-in-brief/2352-3409/open-access-journal.

For any questions, please send your inquiries to dib@elsevier.com

MethodsX (optional)

We invite you to submit a method article alongside your research article. This is an opportunity to get full credit for the time and money spent on developing research methods, and to increase the visibility and impact of your work. If your research article is accepted, we will contact you with instructions on the submission process for your method article to MethodsX. On receipt at MethodsX it will be editorially reviewed and, upon acceptance, published as a separate method article. Your articles will be linked on ScienceDirect. Please prepare your paper using the [MethodsX Guide for Authors](#) and template available here: [MethodsX template](#). Open access fees apply.

COPYRIGHT TRANSFER AGREEMENT POLICY

We no longer require FAXs or other hardcopies of the Copyright Transfer Agreement. Instead, we have introduced a convenient new process for signing your copyright transfer agreement electronically (eCTA) that will save you considerable time and effort. If your paper is accepted, the Author whom you flag as being the formal Corresponding Author for the paper will receive an e-mail with a link to an online eCTA form. This will enable the Corresponding Author to complete the copyright form electronically within ScholarOne Manuscripts on behalf of all authors on the manuscript. Therefore it is important that during submission you enter all your Co-Authors', and especially your Corresponding Authors', contact details accurately. You may preview the copyright terms and conditions [here](#).
